October Meeting

Bring your first tree or longest-owned tree to the next meeting and share your story.

I’ve only been in the club since 2014. For me, it’s getting to be a little difficult to remember which tree is which as far as length of owning. I try to keep some records but you know how that goes.

I could go down the list of trees that have “taught me lessons” in bonsai.

That’s the nicest way I can think of to describe a dead tree. I will only say that I have learned about soils, over-watering, under-watering, when to prune and when not to, bugs, rodents, and winter care. I have learned many lessons and hopefully won’t repeat them.

Bring a tree and enjoy the stories, lessons and camaraderie.

Bryan Lorentzen

President’s Message October 2019

October already? This year is just flying by. Before you know it 2020 will be here and a new President will be writing these newsletter messages instead of me. There is still time to volunteer for a spot on the executive committee. The election will be held at the beginning of the October meeting. Even if you decide not to run for a spot on the board make sure you attend the meeting so your vote will count in this election.

This is an extremely busy time for MBS. This weekend is the 49th Annual Exhibit; starting with a reception for members and guests on Friday and continuing throughout the weekend with the exhibit for the general public. Tyler Sherrod will be our guest artist and I am looking forward to meeting him as well as watching his demo on Saturday afternoon. As my husband told me this is “Bonsai-fest” weekend.

Another exciting topic that I am looking forward to is our October general meeting. The topic for October is our member’s first tree or longest owned tree. In other words, everyone should bring in either their first tree (if you are lucky enough to still have it) or bring in the tree you have owned the longest in your collection. When you bring in your tree to the meeting come prepared to tell everyone a little bit about the tree (when you got it, how you got it, etc). I still have my first tree and I have an interesting story about the tree that some people have heard before, but everyone will hear at the meeting. If I told everyone the story now I wouldn’t have anything to talk about at the meeting when I bring my tree in, so you will need to wait until October to learn more about my first tree.

This meeting should be a fun evening where we can all learn from one another. We can learn what went well and enabled everyone’s first trees or longest owned trees to thrive. I can envision a meeting filled with laughs and fun. Make sure you join us October 1st

Enjoy the cooler weather,
Melissa J

Don’t forget that the **49th Annual Exhibit** is being held this weekend **At Boerner Botanical Gardens**. Below is the **Schedule of events**.

Don’t forget that you will need your pink parking permit for the **Friday night reception** since **china lights** is also going on that day.

Sign up Now for the 2020 Novice Class

The registration window has opened for the 2020 Novice Class. There will be **ONLY** 12 openings for this class so if you are interested do not delay, as it will fill up quickly.

What does this class provide?

The Novice Class curriculum is focused on helping you develop and prepare a solid foundation of basic bonsai skills and knowledge.

Sessions 1 thru 3 are mainly lecture based with demonstrations to help you better understand the ins and outs of bonsai cultivation.

We will have discussions about watering; soil compositions; fertilization; pest management; repotting; design; pruning; wiring; seasonal timing of work, and much more.

This class provides a work book for future reference and you will also leave with a new tree for your collection.

In the 4th session you will be working on the tree provided, styling and reporting.

The 5th session you will bring your tree back, we will review its current state and provide suggestions as to what you should be doing in the future with this tree.

We will also visit a local nursery and discuss how to evaluate “potential bonsai” from typically available nursery stock.

The class dates are:

- **Saturday February 15th** 9:00 AM till 1:00 PM  Boerner Botanic Gardens
- **Saturday February 29th** 9:00 AM till 1:00 PM  Boerner Botanical Gardens
- **Saturday March 14th** 9:00 AM till 1:00 PM  Boerner Botanical Gardens
- **Saturday April 4th** 9:00 AM till 3:00 PM  Boerner Botanical Gardens
- **Saturday May 2nd** 9:30 AM till 2:00 PM  Oconomowoc

The cost for this class is $170. You can click on the [Eventbrite](#) link or the link on the MBS website to register.

Your instructor is Ron Fortmann, who has been practicing bonsai for 25 years and has taught the Novice classes for several years now.
Bask in the Beauty of Bonsai, Drawing from Bonsai, Yoga Amongst the Bonsai and Much More  09/07/19

This Common Juniper (Juniperus communis var depressa) makes its home at the U.S. National Bonsai & Penjing Museum’s North American pavilion. It was donated to the Museum by Jack Douthitt.
Membership Bonsai Bucks

by PAM W

Last month I wrote an article about the Membership Resource page on the website. Well I made a mistake in reporting our volunteer hours.

MBS members enriched our communities with 480 hours of service in 2017 and 524 hours in 2018. And that are only the documented hours.

In tallying our bonsai bucks for 2019 it occurred to me these are not hours these number are four-hour shifts that each of us donate to our community. So, let’s make the correction and revisit the numbers:

- 2017 – 480 shifts - 1920 hours
- 2018 – 524 shifts - 2096 hours
- 2019 – 516 shifts - 2064 hours

Why do we track these shifts? So we can tally them for Bonsai Bucks.

What are Bonsai Bucks? When you volunteer at an MBS (Annual Exhibit, workshops, State Fair, etc), you will receive a Bonsai Buck for each shift.

How does this help me? We convert these Bonsai Bucks to raffle tickets to be used at the Annual Exhibit.

Check out your current count on Bonsai Bucks and collect them at this weekend’s Annual Exhibit.

MABA/MBS

The Mid-America Bonsai Alliance (MABA) is an organization made up of local bonsai clubs including The Milwaukee Bonsai Society (MBS) to create a rich and diverse community through its inspiring bonsai activities.

WORKSHOPS

One of the most enticing events of any bonsai convention should be the workshop and material opportunities. The guest artists have worked hard to provide quality material by selecting the trees for you to select and gain valuable insight from them.

“EXPERIENCE WITH” WORKSHOPS

Special emphasis is being paid to how you choose, prepare and work with collected, pre-bonsai and nursery material. Attend one or all three of these special “Experience With” sessions as a workshop participant or observer. As a workshop attendee you will get the material and hands on experience/guidance with your material. As a silent observer, you can observe this guidance.

MATERIAL PROVIDED WORKSHOPS

Enjoy some of the unique material our artists were able to provide. Starting with Silverberry a tree with silvery white leaves, or Ted Matson’s shohin pine material that he has been developing, or Todd Schlafer’s collected material from the Colorado Rockies, and who can pass up working on material presented to the New Artist Competition. How about making your own accent or shohin pot?

BEGINNER FRIENDLY

Beginner friendly headlining artist Ted Matson from Southern California will help you get started. Read More.

BRING YOUR OWN MATERIAL WORKSHOPS

Suitable for all levels Bring Your Own Material or purchase something at the vendor area. It’s a great way to both start a bonsai by setting the structure or get guidance as you enter refinement stage.
